

WEDDING BUDGET WORKSHEET

At Flowerama we specialize in providing the exceptional service, the highest quality flowers and a great value. We will work creatively within your budget to provide you with the most beautiful wedding possible. If you have already determined the floral budget for your wedding, please provide us with that figure at your initial consultation. We will then suggest how to get the most from that budget.

It can be very difficult to budget wedding flowers. So, here are some simple guidelines.

TOTAL

We recommend matching the centerpiece to the meal, meaning that if you're spending \$120 per person for the reception, then spend \$120 for each centerpiece.

This worksheet is recommended only to develop a general budget. We customize each wedding to the bride's specific needs. For example, your church or synagogue may be very ornate and need little or no decoration. Please keep in mind that usually about 10-15% of your overall wedding budget is spent on flowers. The average wedding will total around \$30,000 with a flower total to \$3,000 to \$4,500.

We recommend scheduling your wedding consultation 3-4 months prior to your wedding date. We can work with budgets of hundreds of dollars or thousands of dollars. Call us to schedule your consultation at 614-256-6646.
